Uses Not Elsewhere Classified	SP	SP	SP	SP	SP	SP	SP	SP	SP	SP	SP

**DISCUSSION:** Councilor Dolan voiced concern that businesses should not be dictating how the zoning amendments for marijuana cultivation and retail should be performed by the City to meet the particular needs of a business. It was in the City's best interest to create the zoning bylaws, procedures and policies for all businesses to follow. Councilor Wheeler believed that this amendment would eliminate the craft marijuana cooperation prioritization. Vice President Gilmour noted that Massachusetts still placed a stigma on marijuana as an illegal drug, even though it has been legalized for a few years.

**DISCUSSION:** Councilor Desogher reported the Economic Development Committee forwarded a unanimous positive recommendation. Councilor Wheeler thanked the Planning Board for their well thought out language for the proposed amendment. However, he was concerned that the amendment may encourage sprawl to extend the GC (General Commercial) District to the City's northern border. Councilor Jarvis noted that the majority of the land in the area was wetlands and the possibility of a sprawl development in the area would be unlikely.

It was by roll call, 12 yes, 0 no,

### Order no. FY 21-065

MOTION: On a motion by Councilor Wheeler, second by Councilor Mayo, it was, MOVED: THAT IT BE ORDERED THAT THE GREENFIELD CITY COUNCIL AMENDS THE CODE OF THE CITY OF GREENFIELD BY ADDING CHAPTER 117, ORDINANCE TO ESTABLISH A COMMUNITY PRESERVATION COMMITTEE AS ATTACHED HERETO AS EXHIBIT A, AND FURTHER AMENDS THE TABLE AND INDEX OF CONTENTS OF THE CODE AND FURTHER THAT NONSUBSTANTIVE CHANGES TO THE NUMBERING OF THE ORDINANCE BE PERMITTED IN ORDER THAT IT BE IN COMPLIANCE WITH THE NUMBERING FORMAT OF THE CODE OF THE CITY OF GREENFIELD.

**DISCUSSION:** Councilor Guin had asked for a report from the Mayor's office to verify that there was an agreement with the proposed language and was in compliance with Massachusetts State Law.

**MOTION:** On a motion by Councilor Wheeler, second by Councilor Jarvis, it was, **MOVED:** TO AMEND CHAPTER [117], SECTION 2A: MEMBERSHIP; TERMS; OFFICERS, PARAGRAPHS 6 & 7 TO ADD THE FOLLOWING LANGUAGE AFTER "TWO MEMBERS OF THE GENERAL PUBLIC": "NOT CITY EMPLOYEES OR CURRENTLY HOLDING AN ELECTED OR APPOINTED POSITION,"

**DISCUSSION:** Vice President Gilmour believed this added language could encourage a more diverse panel of appointees to join this Committee. Councilor Guin pointed out that this Committee would be especially busy and having a panel that did not have other committees or commissions to be on could be beneficial; however, his concern would be if someone interested who was on just one committee who had time to commit to this panel would not be eligible. There would need to be a fair balance between "inclusive" and "exclusive" language.

It was by roll call, 9 yes, 3 no,

**VOTED:** TO APPROVE AMENDMENT.

Order no. FY21-065, as amended, was on the floor: THAT THE GREENFIELD CITY COUNCIL AMENDS THE CODE OF THE CITY OF GREENFIELD BY ADDING CHAPTER 117, ORDINANCE TO ESTABLISH A COMMUNITY PRESERVATION COMMITTEE AS ATTACHED HERETO AS EXHIBIT A, AND FURTHER AMENDS THE TABLE AND INDEX OF CONTENTS OF THE CODE AND FURTHER THAT NONSUBSTANTIVE CHANGES TO THE NUMBERING OF THE ORDINANCE BE PERMITTED IN ORDER THAT IT BE IN COMPLIANCE WITH THE NUMBERING FORMAT OF THE CODE OF THE CITY OF GREENFIELD.

## CITY COUNCIL ORDER CITY of GREENFIELD MASSACHUSETTS

Upon recommendation of Mayor Wedegartner

SECTION 2		DESCRIPTION OF CAPITAL I	TEM

The current A1 was purchased used and is a 2018 ford ambulance. Both ambulances that the city has purchased are used ambulances. It is recommended that an ambulance remain in front line service for 3-5 years and then transferred to back up 5-10 years. We are asking for \$295,000 to be approved through a lease purchase. We are looking to put \$50,000 down and yearly payments of no more than \$50,000 for no longer than a 7 years. The money used for this purchase will be from the Ambulance revenue account. This account was set up to help fund the cost of the ambulance capabilities including purchase of ambulances.

#### JUSTIFICATION, LINK TO MASTER PLAN, DEPT GOALS AND/OR OBJECTIVES.

The new ambulance would be the first due ambulance for the Fire Department. The Fire Department has an ever increasing role in EMS delivery for the City. This new ambulance will cut down on out of service time and maintenance costs. This ambulance falls in line with our vehicle replacement plan. "With the Greenfield Fire Department call volume, Emergency Vehicle Response (EVR) plan recommends that our ambulances should be pulled from front line service every three to five years". The ambulance is the busiest vehicle that we have accounting for over 50% of the calls within the department on this one vehicle alone.

## HISTORY AND CURRENT STATUS; IMPACT IF CANCELLED OR DELAYED

The current ambulance was one of two used ambulances purchased to allow time to accumulate money in the ambulance revenue account. The current ambulance is a smaller ambulance than what is desired by the department. Equipment will be transferred from the current ambulance into the new ambulance keeping the cost of purchase down. We have only purchased used ambulances in the past. These used ambulances have only been in service for two to four years before we needed to replace them. We have already gone through 4 ambulances since we started the service. The new ambulance will be in service for 8-10 years.

To crush our stockpile of waste products from our projects to produce 1-1/2 processed gravel.

## JUSTIFICATION, LINK TO MASTER PLAN, DEPT GOALS AND/OR OBJECTIVES

We have a stockpile of different materials that can be crushed and make a renowable product for future project use. The stockpile consists of pavement millings, concrete from sidewalks, pavement from excavations, and sand,

## HISTORY AND CURRENT STATUS; IMPACT IF CANCELLED OR DELAYED

We have around 6,00 yards of material that has no use in it's current state. Crushing and mixing these materials will produce an acceptable use for preparing walks, road trenches, dressing our gravel lots, and parking lots. Traditionally we have made our own gravel as it is a recycled product, much cheaper per yard than to purchase which has significant operating budget impacts, and is accessible 24/7 for emergency work. I am projecting that we will be out of gravel by the end of the 2021 construction season. We have around 450 yards on hand, and after crushing we will have 16,000 ton to be crushed. Crushing will cost \$6.25/ton, and to purchase \$10-\$11/ton.

SECTION 2

#### DESCRIPTION OF CAPITAL ITEM

The capital request is to build a poured in place concrete skate park of approximately 12,000 sq feet. The proposed park would include features for both beginner and advanced skaters. The poured in place structures would include transitions, decks, steirs, rails and ramps. Final location will need to be determined. This request could be part of a PARC Grant proposal.

#### JUSTIFICATION, LINK TO MASTER PLAN, DEPT GOALS AND/OR OBJECTIVES

Replacing the skate park is linked to the Master Plan under the Public Facilities: Services & Energy Goal 3: Strategy 6 on page 270. It is also part of the 2012 Open Space and Recreation Plan; Goal A. Objective A1) to rebuild the skate park, page 149.

#### HISTORY AND CURRENT STATUS, IMPACT IF CANCELLED OR DELAYED

Since the demolition of the original skale park in 2009, the Recreation Department, Skale Group, and Recreation Commission have researched all City owned properties as well as privately owned properties to determine a suitable location. Previously, the Riddell Street property was proposed for the project, but has since been ruled out due to the exceedingly high cost of remediation and demolition of the existing structures. With the support of the Recreation Commission, the Recreation Department is proposing to construct the skate park at the current City owned CRD parking lots located off Chapman and Davis Streets. It is our hope to apply for a PARC Grant in July 2021 with anticipation of design and construction to begin in 2022. Capital support is needed as matching funds for the grant. Our community is in full support of rebuilding a skate park and throughout the post several years has fundraised approximately \$23,000 for the project.

DESCRIPTION OF CAPITAL ITEM

This would be for all upgrades needed to our current facility due to the Police Department not being part of a Public Safety Complex.

Included Upgrades:

Fencing around the rear of the building, movement of internal walls and upgrades to dispatch, server rooms, booking and cell block, locker room reconfigurations, parking lot replacement, sally port replacement, mald remediation and any flooring/office replacements

Any additional structural needs to maintain Accreditation.

#### JUSTIFICATION, LINK TO MASTER PLAN, DEPT GOALS AND/OR OBJECTIVES

Building has not been upgraded since moving in, in 1998. There have been many changes to the building, none of which are economically effective or sustainable over the long term. The booking area is a safety hexard, and needs to be brought up to code if it is to continue to be used lone term. The dispatch room needs to be reconfigured, for safety and for the changing of procedures. The server room has become to small, and with the changes to the radio system, the camera systems, and on site needs will have to be reconfigured. There is no additional space for female officers and employees, and currently no female supervisor locker areas. The rear of the building will not pass accredition on our third year review, due to several security concerns. The parking lot has never been redone, and is in disrepair. The Sally Port will not pass accreditation on our next review for safety and security reasons.

#### HISTORY AND CURRENT STATUS; IMPACT IF CANCELLED OR DELAYED

This would not be needed should the PD be moved to a joint public safety complex

Replace Heavy Duty Dump Truck

#### JUSTIFICATION, LINK TO MASTER PLAN, DEPT GOALS AND/OR OBJECTIVES

The new truck will replace Truck #35 which is a 1997 Chevy Kodiek. This make and model has been discontinued for quite some time and parts availability is scarce at best. Some parts are no longer available which leads to finding them used or from a scrap yard which can be time consuming and affects our efficiency.

### HISTORY AND CURRENT STATUS; IMPACT IF CANCELLED OR DELAYED

Having vehicles that are beyond their useful life creates down time and affects production and snow fighting operations. Those dump trucks also burden the Vehicle Maintenance parts and supplies budget.

#### JUSTIFICATION, LINK TO MASTER PLAN, DEPT GOALS AND/OR OBJECTIVES

The Electrical panel, breakers, and disconnects are of 1974 vintage. Many of the disconnects have to be shut off multiple times to cut power to the equipment that needs to be isolated or worked on. The breaker will show off, but equipment is still energized which is a safety issue. Replacement parts are no longer available.

This is a safety deficiency that needs to be addressed. This request is for materials only and the work will be performed by city forces saving a significant amount of money.

RE: Riverside Water District Consecutive System Agreement

Dear City Council, Greenfield provides water to the Riverside Water District and is considered a consecutive Public Water System with Greenfield serving as the parent system.

Written agreements should be in place describing all operations, ownership of the critical infrastructure, sampling responsibilities, water quality analysis, responsibilities, and rate agreements within the agreement. This agreement is required by the Department of Environmental Protection Agency (DEP).

Please find the attached 20 year agreement for your approval.

Thank you in advance.

#### AGREEMENT

AGREEMENT made this	day of	in the year Two Thousand
Twenty One, by and between:		

THE INHABITANTS OF THE CITY OF GREENFIELD, acting by and through its Mayor, duly authorized, hereinafter referred to as "City"; and the RIVERSIDE WATER DISTRICT, duly established by an Act of the Massachusetts Legislature designated as Chapter 274 of the Acts of 1970, as amended, acting by and through its Board of Water Commissioners, duly authorized, thereinafter referred to as "District".

WHEREAS, the District is desirous of obtaining water from the City for domestic and other purposes, including the extinguishing of fires, for the inhabitants of the territory served by the District; and

WHEREAS, meetings have been held between said City and said District relating to the feasibility of providing said service to the District and the conditions necessary to establish the purchase of water from the City,

NOW THEREFORE, in consideration of these mutual rights, covenants and obligations, said District agrees to abide by, perform and enter into, and said City agrees to enter into and abide by the following conditions, stipulations and provisions relating to the use of water by said District:

- The point of connection to the Greenfield system shall be within the existing metering pit located on the westerly side of the Fall River. This pit and connection was made in accordance with the original agreement between the City and the District that was signed on October 17, 1974.
- The City will provide water to said District based on the following formula:
  - (a) The average annual daily consumption of the District shall not exceed five (5%) percent of the safe yield of the City's water system.
  - (b) At the time of the execution of the within Contract, the safe yield of the City's system is estimated to be 2.12 MGD. Based on this current safe yield, the District may use up to 106,000 gallons per day, as of the contract date.
  - (c) In the event the District exceeds the five (5%) percent safe yield factor, then the within Contract shall be deemed to be null and void and a new contract shall be negotiated to reflect and compensate for any charge consistent with the ability of the City and the requirements of the District, if possible.

- 3. All water sold to the District shall pass through the master meter located at the point of interconnection between the two systems. The City shall have the right to remove, calibrate, repair, or replace this meter at anytime. The cost of ordinary care and repair of the master meter is borne by the City; the cost of unusual repairs (necessitated by freezing, hot water, backflows, etc.) due or attributable to any carelessness or neglect on the part of the District shall be borne by the District. The City is not responsible for any service meters within the District's system.
- No person, except authorized employees of the City or persons expressly authorized by the City, shall install, remove, bypass, repair, or calibrate the master meter.
- The District shall be billed for the amount of water that passes through the master meter whether the water is used or wasted. No abatements shall be granted for water that is wasted or leaked
- The billing period currently in effect by the City will apply to the District.
- The water rate charge to the District shall reflect the current cost of water production and supply as determined by the Mayor and/or Greenfield City Council for each fiscal year.
   The current water rate charge is \$3.52 per 100 c.f.
- The City shall notify the District of any increase to the water rate charge. Notice shall be sent by certified mail a minimum of 180 days prior to the effective date of the increase.
- 9. In the event it becomes necessary for the City to provide any capital improvements to its system from the City's last service connection in Factory Hollow up to and including the metering pit, which would solely benefit the District, then the District would be wholly responsible for the cost of said improvement or would be required to construct or install said improvement at no cost to said City. In the event the improvement benefitted both parties, then costs would be pro-rated on a basis reflecting the eventual apportionment.
- The District shall be responsible for the maintenance of its system.
- 11. The District shall be responsible for all testing and reporting required under the Safe Drinking Water Act (SDWA) and by the Massachusetts Department of Environmental Protection. The City will perform testing on behalf of the District and the District shall be responsible for paying for all laboratory and material costs associated with the testing.
- All users within the District shall be metered except for specifically designated stand-by fire services.
- No cross-connection, either temporary or permanent, between a piping system containing City of Greenfield water and any other piping system will be permitted unless fitted with

a suitable backflow prevention device(s) that meet the requirements of Massachusetts 310 CMR 22.22.

- (a) All new water service connections, including residential, within the District shall be fitted with proper backflow prevention protection before water is supplied. Protection shall be provided to the last flowing tap on the premises.
- (b) The District shall maintain an active Cross Connection Control program that has been approved by the Massachusetts Department of Environmental Protection. If the District fails to develop, administer, and enforce such program, the City will require the installation suitable of backflow prevention devices at the point of connection between the two systems.
- 14. In the event a restriction on the amount of water is imposed on the City system, then the District would be required to impose identical restrictions on the use of its water.
- 15. The District shall adopt similar Rules and Regulations as now exist in the City in order that the District users will be required to conform to these regulations insofar as they may be applicable to the District.
- 16. The City shall not be liable for the following:
  - (a) No user, including the District, shall be entitled to damages, or to have payment refunded, for any interruption of supply occasioned either by accident to any portion of the works, or by shutting off for the purpose of additions or repairs to the works, or by the stoppage or shortage of supply due to causes beyond the control of the City, such as excessive use of and waste of water by other users, or by leaks or defects in the pipes or appliances owned by the user, or by other users.
  - (b) Any damage caused by a water leak due to any and all causes.
  - (c) The City does not guarantee constant pressure nor uninterrupted service, nor does it assure the consumer either a full volume of water or the required pressure per square inch necessary to effectively operate hydraulic elevators, sprinkler systems, appliances, or any other usages, the same being subject to all the variable conditions that may take place in the use of water from the City mains.
  - (d) The City will not be responsible for damages caused by rusty and/or dirty water resulting from the opening or closing of any gate for repairs, the use of any hydrant, the breaking of any pipe, or any circumstances beyond the City's control.
  - (e) The City assumes no liability for conditions which exist in consumer's pipes and cause trouble coincident to or following the repairs of any main pipe, service pipe, or meter.

- 17. The within Contract between the parties herein shall be terminated by mutual agreement of said parties, or either party may terminate said Contract in the event a condition, reservation or other required act is not performed in accord with the terms as herein contained; otherwise, this Contract shall be deemed to be in force and effect for a period of twenty (20) years.
- 18. Notwithstanding any of the provisions herein contained, the within Contract shall conform to the provisions of the Massachusetts General Laws, including, but not limited to Chapter 40, Section 39H, and the within Contract is deemed to be divisible and the invalidity of any section, clause or paragraph contained herein shall not invalidate the entire Contract or excuse performance on the part of either party for the valid portions of said Contract

IN WITNESS WHEREOF, the Inhabitants of the City of Greenfield, acting by and through its Mayor, has caused these presents to be signed and delivered by its Mayor, and the said Riverside Water District has caused these presents to be signed and delivered by its Board of Water Commissioners, all on the day and year first above written.

Re: OPEB Stabilization Transfer

Normally, as Director of Municipal Finance, I advise against reducing the tax rate.

Because the OPEB Stabilization Fund requires a 2/3 vote and the General Fund Operating Budget only requires a majority vote, the use of the OPEB Stabilization Fund for the Fiscal Year 2022 General Fund Operating budget must be handled this way.

The OPEB Stabilization fund is being utilized in the same manner as the Parking Meter Receipts Reserved Fund in supporting the Fiscal year 2022 operating budget. Within the Fiscal Year 2022 General Fund Operating Budget there is an increase of 7 new retirees with benefits. The transfer from the OPEB stabilization assists with this increase.

In the end, the same result is achieved as with the Parking Meter Receipts Reserved Fund in reducing the amount "raised and appropriated" (taxation).

The OPEB Stabilization Fund differs from the City's other stabilization funds as it has a dedicated recurring revenue stream from cannabis revenue and therefore is not reliant on free cash. The cannabis revenue will replenish the amount in the OPEB Stabilization Fund just as parking meter revenue replenishes the Parking Meter Receipts Reserved Fund.

#### An Order FY22 GCET Enterprise Appropriation - \$1,771,602

## Ordered, that:

The sum of \$1,771,602 be appropriated for the FY22 GCET Enterprise fund and that \$97,879 be included in appropriation from the General Fund for GCET Enterprise indirect costs to be allocated to the GCET enterprise fund for funding and that \$1,771,602 be raised from GCET user rate receipts for the fiscal year starting July 1, 2021 and ending June 30, 2022.

Majority vote required VOTE:

#### **Explanation of supporting rationale:**

GCET Enteprise Budget Attached

#### Informational:

"Raised" and "Appropriated" does not include indirect costs.

To prevent duplication on the tax recap, "Indirect costs" are listed separately as they are a reimbursement to the General Fund.
